Subject: RE: Hot Topics — PFAS and lead
Attachments: OLEM 26-PFAS Groundwater Contamination Cannon AFB NM_FINAL.docx

The only PFAS related fact sheet from OLEM was the PFAS groundwater contamination at Cannon AFB (attached). The GW guidance is being discussed, but I don't know if anything is final or will be before the hearings.

Taylor Hoverman
Policy Counsel to the Assistant Administrator
Office of Land and Emergency Management
U.S. Environmental Protection Agency

Can you send the attachment referenced in Alex's email? Did OLEM submit entries for PFAS GW cleanup guidance for the combined factsheet? + Taylor Hoverman.

Subject: RE: Hot Topics — PFAS and lead

I have just clarified with Troy that the Administrator wants ONE each factsheet for his hearing on PFAS and one on LEAD. These won't replace the program specific ones but rather be integrated ones. Since OCSPP, OW, and Veronica have each done factsheets, can one of our offices integrate them into the product the Administrator wants?

Below are OW's and attached are OCSPPs, and Veronica's.

The bullet that AW definitely wants on lead is:

- Reductions to EPA's Lead Paint programs are mitigated within the context of the broader President's Budget request, such as through the Department of Housing and Urban Development (HUD). HUD's FY 2020 budget includes \$290 million for lead paint reduction, double their requested amount last year.

Alexandra Dapolito Dunn, Esq.
Assistant Administrator
Office of Chemical Safety and Pollution Prevention
